Website Design

Website URL

The website is hosted at https://jack0ween.github.io/Welcome-to-Twin-peaks/ . I apologise for it not being on the UCC server, however it would not let me ssh from home no matter what I did so I had to host it elsewhere.

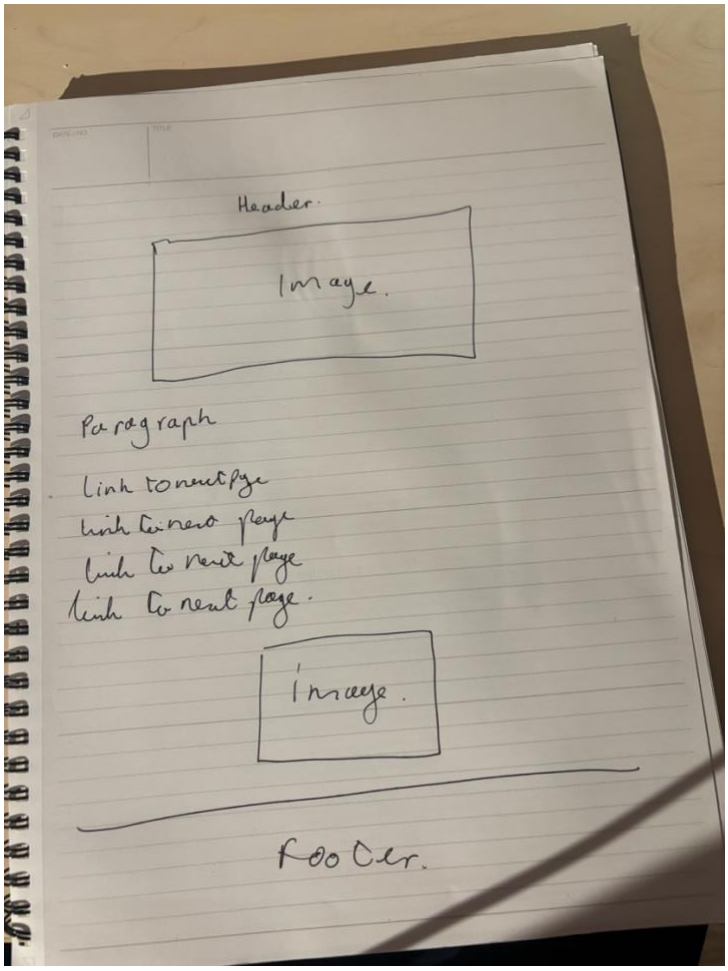

Website Concept

This website is about the hit 1990's television show Twin Peaks. The intended audience for this site is both existing fans of the programme and newcomers who would like to know more about it. I want visitors of this site to be able to find out important information surrounding the tv show, such as the main cast members, creators, episode count, and fun facts.

Website Structure

The website will consist of a home page containing photos and screencaps of Twin Peaks to create an atmosphere for the user. It will then split off into four sub-pages, one for the cast and crew, one to display a gallery of behind the scenes photos, one displaying the top rated episodes from IMDB, and finally one containing a list of trivia surrounding the programme.
